Refer to Related Regulations Laws for exceptions. LSIS circuit breakers are excluded.

▶ RoHS: Directive on the Restriction of Hazardous Substances in the Electrical and Electronic Equipment (Effective on February 13, 2003)

Application

Products manufactured by LSIS do not directly apply to the RoHS Directive. However, small inverters imbedded in sports equipment and small breakers in large home appliances can be indirectly applied to the Directive.

LSIS continues to comply with the RoHS directive in order to establish environmentally friendly management policies and gain global competitiveness for our products.

According to the regulation, eight of the 10 WEEE products excluding 'medical equipment' and 'control systems' must be RoHS compliant.
